

Company Profile

2025

"To improve is to change; to be perfect is to change often."

Winston Churchill

About Us

- We specialise in Integrated Artificial Intelligence Risk Solutions and off-site CCTV monitoring.
- We are strategically based in Mbombela, Capital City of Mpumalanga, with the ability to expand our network and solutions all over South Africa.
- We continuously seek to understand the trends and move swiftly to be positioned as the preferred provider of technologically highly advanced artificial intelligence integrated risk solutions.
- Naspoti Risk Solutions has been in the business since 2010 and has established itself as a well known, respected brand, and strategic partner in the fight against crime.
- Amalgamation of shareholders and members culminated in specialised skills, knowledge, and experience within well established networks in a highly competitive industry.

Vision

Our vision serves as the framework for our roadmap and guides every aspect of our business.

People: Be a great place of employment where people are inspired to be the best they can be.

Portfolio: Bring to the world a portfolio of quality risk solutions that anticipate and satisfy people's needs and desire for peace of mind.

Partners: Nurture a winning network of customers, suppliers and partners; together we create mutual, enduring values.

Planet: Be a responsible citizen that makes a difference in the sustainability of our planet in collaboration with fellow workers, business partners and clients within our communities.

Productivity: Be a highly efficient, lean and fast-moving organization.

Mission

At NASPOTI SECURITY SOLUTIONS Pty Ltd, our mission is to redefine security and surveillance by providing state-of-the-art AI-powered CCTV monitoring solutions. We are dedicated to delivering advanced technologies that enable proactive threat detection, enhance situational awareness, and optimize response times. Through continuous innovation, rigorous research, and a customer-centric approach, we aim to empower businesses, governments, and individuals with the tools they need to safeguard their assets and protect our communities. Our ultimate goal is to contribute to a safer world by leveraging the full potential of artificial intelligence, computer vision, and data analytics in the field of video surveillance.

Our Philosophy

Logic dictates that the only intermediate through which criminal activity can be successfully addressed and managed within a given environment, is to achieve a condition where prospective perpetrators of crime would consider the risk too extreme for any significant gain.

Given the general acceptance that the perpetrator cannot be stopped from entering the premises, the objectives of any defensive measures would be to make the attractive goods as inaccessible as possible.

Considering the above, Naspoti's professional and highly skilled management team with more than 130 years' combined experience in the security- and business management environment, is most capable to overcome all challenges to meet the above objectives without fear or favour.

Our History

2009

Naspoti Security Solutions established by combining 70 years of shared experience in the security industry.

2010
